## Summarising our Problem:

- Police Unable to trace people who have travelled with this bus no 123 @ 1pm ?
- People unable to judge whether they should go to doctor or not.?
- People starving and unable to contact proper channel for food crisis?
- People unable to REPORT suspects?
- Rumours?
- No easy platform for BOTH GOVT AND PEOPLE.

## Summarising our Solution: PROTOTYPE DEMO

- Admin and Personal App:
  - Food Crisis Report
  - Suspected Patient Reporting
  - Symptoms Checker
  - Medical Assistant Auto Chatbot
- Awareness Video and written Text
- Travel History Reporting
  - Tracing people who travelled with that route or have contact

## Market Research:

- We asked and surveyed many people and seen interviews and analysed tweet of various people.
- No proper Channel between Govt, Doctor, People(Yes! A barrier of rich and poor)
- Stats of total cases crosses 12LAKHS+ with deaths of 65536+
- People don't have proper channel to report them
- Tested this app with many other fellow members for accuracy and concept (They took around 5-6 mins to explore everything and even suggest more changes)

## Business Strategy:

- Upcoming Scenario coming is such that these problem will definitely strike the upcoming situation.
- Growth of this can be seen first with the launch of the app in playstore.
- Managing of person supervisors who will check over all this.
- A delivery partner for the delivery of the food to address with food crisis.
- Then we have to contact police , and law officials for tracking persons with +ve covid scene
- We have contacted various private firms like Tata, and Reliance
- Got a +ve response from Reliance regarding this app we have also contacted govt.
